The Third AFRITAC West 2 (AFW2) Steering Committee Meeting
AFW2 held its third Steering Committee (SC) meeting on December 2, 2015 in Accra. In attendance were representatives of AFW2 development partners and member countries as well as IMF staff. The meeting was chaired by Mr. Seth Terkper, Minister of Finance for Ghana.

Regional Workshop on Improving VAT Compliance
AFW2 hosted a training workshop on VAT compliance with the participation of all six member countries as well as Senegal. In light of the post-Addis agenda and the importance of domestic revenue mobilization, the peer-to-peer learning workshop on improving VAT compliance was welcomed by the member countries.

AFW2 welcomes Mr. Singh and bids farewell to Mr. Lepain
Mr. Ashni Singh joined the Center in November as the new PFM Advisor. The Center also bid farewell to Mr. Jean Marc Lepain, the previous PFM Advisor, in December.
The third AFW2 SC meeting discussed among other issues, the implementation of the FY work program for the first half of the FY2016, progress on which was welcomed by the SC members. The meeting took note of the challenging macroeconomic context of the AFW2 countries and highlighted the critical need to strengthen institutions as a way to overcome the vulnerabilities. It emphasized that successful capacity development required strong country ownership and hands-on Technical Assistance Support.

Representatives from Liberia and Sierra Leone highlighted their capacity building priorities in a post-Ebola period. The SC welcomed the Center’s plans for deeper re-engagement in both countries.

The SC also encouraged the Center’s engagement with the new Administration in Nigeria; notably the support to Kaduna State on the implementation of the Treasury Single Account (TSA).

The SC further called for greater support for the regional integration process in the Economic Community of West African States (ECOWAS) and collaboration between AFW2 and AFRITAC West, as well as regional institutions like the West African Institute for Financial and Economic Management (WAIFEM).

The meeting also included a seminar on Value Added Tax (VAT) in AFW2 countries. The seminar highlighted the state of play in the five AFW2 countries implementing VAT in terms of VAT design and revenue performance. The factors behind the VAT revenue gaps in these countries as well as the strategies for reforming VAT to maximize revenues were also discussed.

The next SC will be held around end-April 2016, in Banjul, The Gambia.

Regional Workshop on Improving VAT Compliance (November 16-20)

In November 2015, a 5-day regional workshop on improving VAT compliance was held by AFW2 with the participation of all six member countries as well as Senegal.

VAT has emerged as an important source of domestic revenue which requires effective compliance management to deliver on its perceived benefits as a ‘self enforcing’ tax. The overall objective of the workshop thus was to assist revenue administrations in the region to develop and implement effective compliance improvement strategies in VAT management.

The workshop discussed the impact of VAT policy design on revenue performance and compliance management. It also shared best practices in various compliance management areas including registration, filing and payments, taxpayer education, refunds, audits as well as VAT on imported services and e-Commerce. Participants also shared experiences through country presentations.

The workshop was conducted in collaboration with AFRITAC West and the African Tax Administration Forum Secretariat who shared the experiences and challenges in Francophone West Africa and Southern Africa respectively.

The responses provided by participants at the end of the workshop were very positive with an overall rating of 4.03 out of 5 for both the workshop presentations and administrative arrangements.

“...The workshop came at a time when VAT revenues have stagnated in the region. It serves as a wakeup call for all authorities to rise to the challenge of revenue mobilization. All aspects of the workshop were necessary and we appreciate it a lot.”

Feedback on AFW2 Training on Consolidation Supervision for Bank of Ghana (BoG)

In December 2015, AFW2 provided training on consolidated supervision to staff of the Banking Supervision Department of the (BoG).

Ms. Linda Portia McDave, Deputy Chief Manager, Banking Supervision Department, (pictured below), summarized the participants’ assessment of the training program.

“In Consolidated Supervision as we have learnt is a structured approach to ensure that all risk exposures of a bank belonging to a banking or conglomerate group are taken into account, whether the risks arise in the bank itself, or in a parent, subsidiary or affiliate of the bank. It is important for us as supervisors to be trained in consolidated supervision because risks arising outside the bank can threaten the solvency of our banks.

Our resource person structured the training such that we were actively involved as participants through the various practical assignments we undertook. As a result of this useful approach, we have learnt a lot about our own banks and have gained more insight into consolidated supervision.

We are grateful to the resource person, Mr. Mike Andrew, to AFW2; particularly Ms. Cheryl Bruce and to the management of Bank of Ghana for making this training possible.

We assure you and indeed ourselves that our bosses will surely see the usefulness of the training in our work and delivery. We look forward to follow-up training programs in this area and other areas of our work.”

AFW2 visit to Nigeria

In November 2015, IMF staff including an AFW2 team were invited to Nigeria’s National Economic Council Meeting to speak about the ongoing work on TSA reforms in Kaduna State.
